Dear Ms. Gerlach, Steel, Dadson, Hendren, Dyson and Mr. Walker:

Re: Urgent concerns regarding community living services and supports

Thank you for your letter outlining your concerns regarding community living services and supports. As stated, of mandate includes participating in ministry and CLBC initiatives related to policy and planning, however, it does not extend to recommending the actions of other organizations. Recommendations made by my office relate directly to the calls I receive. I do appreciate your concerns and am forwarding your letter on to Community Living BC for a response.

Regards,

Jane Holland
Advocate for Service Quality
