

## Service Access and Capacity

CLBC currently provides services of some kind to approximately 32% of the estimated 39,000 adults with developmental disabilities who live in BC. At CLBC's projected rate of increased demand of 6%, an additional 27,000 adults will need services by 2030. Many of these individuals will be older adults living with aging caregivers. The potential impact of this is illustrated in the following chart.

### Projected Increase in Persons Requiring Services
