Dear Minister Cadieux:

Reference: Housing for Adults with Developmental Disabilities

At a Regular Council Meeting held on October 24, 2011, Fort St. John City Council reviewed correspondence received from the B.C. Community Living Action Group dated October 13, 2011 regarding provincial funding cuts to housing programs for adults and families affected by developmental disabilities.

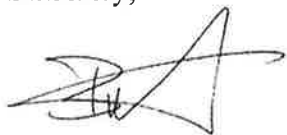

Fort St. John City Council expressed concern for those adults living with developmental disabilities who depend on the much needed support services provided by organizations such as the BC Community Living Action Group and have passed the following Resolution for your consideration.

RESOLUTION NO. 469/11
MOVED/SECONDED

"THAT, Council urge the Provincial Government to end funding cuts to group homes for adults with developmental disabilities, implement a moratorium on the closure of these group homes and provide a sufficient financial resources to both maintain this vital housing resource and address growing waitlists associated with these homes."

The City of Fort St. John appreciates your attention to this matter.

Sincerely,

Bruce Lantz
Mayor
